

V-549 Dual Gas AC Machine

Introducing the V-549 Dual Gas Air Conditioning Machine from the latest VeriCool range, designed for modern garages and workshops. It accommodates both R134a and 1234yf refrigerants, ensuring versatility for all vehicles. The intuitive interface enables easy operation, while the integrated database and printer facilitate record-keeping. Its robust design ensures efficiency and reliability, making it essential for quality air conditioning services.

Features

- ✓ Compatible with R134a & 1234yf refrigerants.
- ✓ Fully automatic recovery, vacuum, charge & leak detection.
- ✓ Suitable for petrol, hybrid & electric vehicles.
- ✓ Auto system cleaning prevents cross-contamination.
- ✓ 10" touch screen with digital control & service alerts.
- ✓ Five precision scales for R134a, 1234yf, PAG, POE & waste oil.
- ✓ Deep recovery boosts efficiency up to 95%.
- ✓ Selectable charge modes: HP, LP, or both.
- ✓ Built-in database (60,000+ vehicles), updatable.
- ✓ Built-in printer for service reports.
- ✓ Real-time operation logs.
- ✓ Patented oil bottle prevents contamination.
- ✓ High-sensitivity sensors for accurate leak detection.
- ✓ Smart prompts for filter & pump oil changes.

Technical Specification

Tank Capacity: 18kg
Vacuum pump: 120L/min
Power: 1200W
Refrigerant: R134a & 1234yf
Compressor: 2/3HP
Weight: 120kg

F-Gas Training is available at an additional cost*
